Certificate course on

Plant Propagation and Nursery Management

Objectives:

This course aims to develop a basic understanding of the principles of plant propagation, an overview of propagation techniques, a general knowledge of the methods of propagation of the more commonly cultivated plants and the basic knowledge on entrepreneurial skills required to run a small scale commercial nursery.

Justification

The main problem of unemployment in the present situation can only be alleviated with self employment. There are lot of areas in agriculture to take up an enterprise and one of it is plant propagation. The number of educated but untrained youth who have passed VHSE/Plus two or above is increasing. These youth lack technical skill to start an enterprise. This course aims to give applied knowledge on basics of plant propagation, nursery management and basics of entrepreneurship development. In a state like Kerala where horticulture crops dominate, require more specialist propagators for successful management of the nursery industry.
Details of the proposed programmes

Duration : 6 months
Total Credits : 18
Location : Centre for E-learning, Kerala Agricultural University, College of Horticulture, Vellanikkara, Thrissur-680 656
Registration : April and September Sessions
- separate registration for institutions
